SUGAR—96 Degree Test Centrifugals, 3.89c. Per ton, \$77.20.  
88 Analysis Beets, 10s. 7 1/2d. Per ton, \$86.38.

By DANIEL LOGAN.

## HAWAIIAN SUGAR IS VERY ACTIVE

A heavy movement in Hawaiian Sugar Co.'s stock is indicated by sales between sessions and at today's board aggregating 727 shares at the unchanged price of \$41.50. The largest of five blocks was 250 and the smallest twenty-five shares. Oahu shows a gain of half a point in sales of ninety shares at \$31 reported. Ewa brought the unchanged figure of \$31.25 for ten shares on the board. Oiaa holds its advance of yesterday in a sessional transfer of thirty shares at \$4.62 1/2. Fifty shares of Honokaa at \$11.50 between boards indicates a decline of half a point. Hawaiian Commercial and Sugar holds at \$38.87 1/2 in sales totaling 130 shares reported. Hawaiian Pineapple has gained half a point, as shown by a board sale of five shares at \$37.

A recovery of beets this week, together with favorable news from the plantations, probably accounts for renewed activity in sugar stocks.

The Hawaiian exchange reports seventy shares Oiaa at the same price as that attained on the Honolulu exchange.

## CAMPBELL-PARKER ESTATE ACCOUNT

The first account of Hawaiian Trust Co., Ltd., and Muriel Shingle, trustees under the will of Abigail K. C. Parker, deceased, has been referred to J. MacCallum for a master's report. It shows \$295,536.05 invested, of which \$450.76 is due to the trustees as over-investment.

There was received on account of real estate principal \$2342.48, and of real estate income \$2193.89. Payments balancing these amounts respectively were made.

On account of general income was received \$32,152, and paid out \$28,330.08, leaving a balance of account in hand \$3821.92.

Amounts of real and personal property received, including \$50,000 life insurance, less \$42,607.16 claim against A. C. Kawanakoa released, foot up \$310,632.40, from which \$13,764.30 was paid out to heirs as income that had accrued in the hands of the executor and executrix, and \$1782 expenditures scheduled, leaving net \$295,085.29.

### SOME SEMI-PRECIOUS STONES.

The so-called "Swiss lapis," so much shown by the gem dealers, is none other than a slightly porous jasper artificially treated with Prussian blue, says a writer in Handicraft. And this is by no means the only dyed stone.

A very deep and permanent emerald-green color is given to pale, translucent chalcodony which was originally designed to imitate or as a substitute for chrysoprase, but has found favor and is much sought after on its own merits.

This is regarded as an entirely different

## ADVANCE IN RAW SUGAR EXPECTED

Alexander & Baldwin, Ltd., yesterday afternoon received a cablegram from its New York branch saying in substance:

"Steamer Californian arrived with 8160 tons of sugar, which sold on 3.86c basis. Holders of raws are asking 3.92c and firm at this price, but refiners are still bidding 3.86c."

This news is interpreted as indicating an advance in price before many days.

ferent stone from chrysoprase, the beautiful apple-green variety of chalcodony, whose name, indicating a golden leek, was bestowed upon it by the ancient Greeks.

Plasma is another name for a darker green jasper, of which the bloodstone of India is a variety; although the plasma, of lighter color (pale sage green and sometimes slightly tinged with a brownish lavender tint is known as heliotrope, and this stone is very attractive, owing to its slight translucency and soft, neutral colors.

Who is not familiar with the well-known crocidolite or "tiger-eye," so popular in years gone by and now enjoying somewhat of a revival? The clearest effect of this gem is imparted by selecting the thin cut, yellow stones, which should have considerable translucency, closely resembling the Ceylon chrysoberyl or precious cat's paw, but with which it is in no way related.

Practically any stone that will allow cutting into the cabochon shape and will accept a high polish, showing some pleasing color or combinations of color, may well be termed a gem, and is thus quite suitable for a setting or a mounting.

Primarily, of course, among this class of stones are the quartzes, of which, perhaps, the latest named is apricotine, a beautiful, translucent, water-worn pebble found on many of our tide-water or estuary beaches, although the best examples so far are from the shores of Delaware bay, in New Jersey.

This stone is of a very rich pink, reminding one of a slice of a ripe apricot, from which fact it takes its name, and when the pebble is polished it is worthy of fastidious treatment. Approached in color only by certain shades of coral, it has this advantage of being richly translucent and often-times with a shimmering light somewhat similar to the aventurin.

Many new agates are now exploited, the commoner forms being the so-called Lake Superior agates; but, properly speaking, these are the beautifully striped and interlaminated little carnelian pebbles found upon the smaller lake beaches throughout the states of Minnesota and Wisconsin. These occur mostly in the reddish and pale pinks and sometimes in the darker blood-red sards, and are really very beautiful when due regard is given to the agatized lines by the skillful lapidist.

## FILED FOR RECORD

June 6, 1911.

Documents entered of record June 6, 1911, from 10:30 a. m. to 4:30 p. m.: Amelia Nystrom and husband to Jane C. Lovestad, D.

HIS MUSICAL VOICE.

"Ladies and gentlemen," said the entertainer, "having blindfolded my partner, I will now proceed to test her thought-reading powers. I have in my hand an apple. Will you kindly tell the audience what it is that I am holding in my hand?"

"An apple."

"Correct. I have here a watch. Kindly tell the audience what I have."

"A watch."

"Quite right. You see, ladies and gentlemen, it is impossible to catch her."

The entertainer produced a piece of wood and a saw and commenced to saw vigorously.

"Kindly tell the audience what I am doing."

No reply.

"This is rather a difficult feat, ladies and gentlemen. I will try again. Can you tell me what I am doing?"

said the entertainer, continuing his sawing.

"Yes. You are singing."

Loud applause.—Trib.

Quarantine Lunch is Speedy.

There was a trial of the new quarantine lunch yesterday. She worked exceedingly well, and showed a rare turn of speed. It is expected that she will be the fastest vessel of her kind in these waters. She showed excellent seagoing qualities, and gave entire satisfaction. There is some additional equipment to come from headquarters yet in order to facilitate the work of boarding vessels, and she also has to be named. So far a suitable name has not been selected.

Superintendent Pope of the Board of Education stated this morning that there would be no session of the public schools next Monday, the day following Kamehameha Day.

NEW RICE MILL.

The K. Yamamoto Rice Mill is the largest as well as the finest in the islands. All machinery is of the very latest pattern. The famous Tengu Rice is cleaned at this mill. With the large cleaning capacity they are able to handle considerable outside particular work which they guarantee.

## RAISE IN LUMBER

An increase of ten per cent in the price of lumber in Honolulu will go into effect on July 1. This is said to be due to a raise on the Pacific Coast, as well as to increased freight latest from the Coast, although the latest San Francisco papers report the lumber business exceedingly dull there. The latest issue to hand of Bradstreet's reports from Seattle. "Lumber is exceptionally quiet and collections are quite slow;" from Portland, Ore.: "Lumbermen complain of decreasing demands and falling prices. A drop in log prices has just been announced;" and from San Francisco: "Building in San Francisco continues active, and cement, lumber and building materials are in fair demand. Collections are slow."

### NEW VERSION.

Hey, diddle-diddle, how students all fiddle!

The senior's head's a balloon!  
The little fresh longs to be a sport,  
And the co-ed runs off to a spoon!

—Judge's Library.

Fine Job Printing, Star Office.

IN THE CIRCUIT COURT OF THE  
First Judicial Circuit, Territory of Hawaii, At Chambers, No. 4135. Divorce.

Flora Faircloth, Libellant, vs. William S. Faircloth, Libellee.

### NOTICE

To William S. Faircloth, the libellee in the above entitled suit:

Take notice, that Flora Faircloth, the libellant in said suit, filed a libel for divorce in said suit, in the above entitled court, against you on the 8th day of November, 1910, and that said suit is still pending and is set for hearing before said court at the Judiciary building in Honolulu, City and County of Honolulu, Territory of Hawaii, on Monday, the 28th day of August, 1911, at 9 o'clock a. m., or as soon thereafter as counsel may be heard.

BY ORDER OF THE COURT.  
Dated, Honolulu, T. H., June 7, 1911.

J. A. THOMPSON,  
Clerk, Circuit Court, First Circuit, Territory of Hawaii.
